| Title: Photogrammetry Technician IV | Effective Date: October 18, 2010 | Grade: XIV | Job Category: Technician |
| Prior Title: Photogrammetry Technician IV | Prior Effective Date: August 24, 2007 | Grade: XIV | Page: 1 of 1 |

CHARACTERISTICS OF WORK

This position is responsible for performing highly technical photogrammetric duties using a variety of skills and mapping equipment.

EXAMPLES OF WORK

The following examples are intended only as illustrations of various types of work performed. No attempt is made to be exhaustive. Related, similar, or other logical duties are performed as assigned. The Department may require employees to perform functions beyond those contained in job descriptions. The Department may modify job descriptions based on Department needs. The Arkansas State Highway and Transportation Department is an "at will" employer.

- Perform analytical aerial triangulation for the extension of mapping control.
- Prepare mapping projects for photogrammetric compilation.
- Operate current generation of photogrammetric workstations.
- Coordinate projects in the compilation unit during the absence of the Photogrammetric Specialist.
- Check aerial photography to determine adherence to specifications.

MINIMUM REQUIREMENTS

The educational equivalent to a bachelor's degree from an accredited college or university in photogrammetry or related field, or three or more years experience as a Photogrammetric Technician III or similar position.

("Accredited" means the educational institution or program is accredited by an accrediting organization recognized either by the United States Department of Education or by the Council for Higher Education Accreditation.)
