

Title: <b>Staff Traffic Engineer</b>	Effective Date: May 20, 2011	Grade: XIX	Job Category: Professional
Prior Title: Staff Traffic Engineer	Prior Effective Date: September 17, 2008	Grade: XIX	Page: 1 of 1

*CHARACTERISTICS OF WORK*

Under the direction of the Division Head, this position is responsible for directing the design, operational and/or administrative functions of the Division for the purpose of increasing the safety and capacity of roadways.

*EXAMPLES OF WORK*

The following examples are intended only as illustrations of various types of work performed. No attempt is made to be exhaustive. Related, similar, or other logical duties are performed as assigned. The Department may require employees to perform functions beyond those contained in job descriptions. The Department may modify job descriptions based on Department needs. The Arkansas State Highway and Transportation Department is an "at will" employer.

- Organize, direct and provide technical supervision for traffic engineering design and improvement plans to increase safety and capacity.
- Assist municipal governments that do not have traffic engineering capabilities.
- Provide traffic engineering expertise to various Divisions and Districts upon request.
- Oversee the operational aspects of traffic control devices on the highway system and in work zones.

*MINIMUM REQUIREMENTS*

Possession of a current *Arkansas* license to practice professional engineering. Professional traffic engineering experience and demonstrated supervisory experience. Thorough knowledge of the Manual on Uniform Traffic Control Devices (MUTCD) and the ability to interpret and apply Department policies and procedures.
