ATTENTION TO ALL PROSPECTIVE BIDDERS

OF

BID INVITATION PT07-04

HIGH TOP PARATRANSIT CONVERSION VAN WITH ADA EQUIPMENT

An addendum to the specifications for the above Invitation For Bids is issued as follows:

<b>Dome Cap</b>	Shall be of a style and design, which provides the lowest possible profile with minimum wind resistance. <b><u>The raised roof dome cap shall be a maximum of thirty-one (31) inches height which shall provide a minimum center aisle height of seventy-five (74) inches.</u></b> Installation shall be performed to ensure the original manufacturer's side body integrity and impact strength. The roof cap shall be designed, constructed, and installed to ensure the maximum rollover protection required by federal and state motor carrier safety regulations.
<b>Door, Ambulatory Front Entrance</b>	<b><u>Shall be two panels, folding transit type which provides a minimum width clear center opening of 22 inches and minimum height from lower step to door header of 80 inches.</u></b> Ambulatory door shall have an electrical/mechanical power which allows operation by a dash-mounted switch. Power opener shall provide a smooth operation throughout the open and close cycle and shall be integrated with OEM vehicle dash, front passenger door and latch mechanism and must be designed to allow ease of troubleshooting and field maintenance and shall have an integrated manual backup system in the event of electrical or mechanical failure. Door shall have an exterior key lock system.
