Continuation Sheet

Section number 7 Page 1

Description

Located at the crossing of Cove Creek on County Road 32D immediately east of its junction with County Road 257, the Crawford County Road 32D Bridge is of steel multi-beam construction. It consists of four spans with a maximum span length of 28 feet for a total length of 110 feet. Its width is 19' curb to curb, 20' outside to outside. Its abutment and pier material is structural stone masonry, and its deck material is wood timber laid over reinforced concrete.

National Park Service

National Register of Historic Places Continuation Sheet

Section number 8 Page 1

Significance

Constructed in 1937, the Crawford County Road 32D Bridge is associated with the *Arkansas Highway and Transportation Era* historic context and is of the open masonry substructure type. Though the identity of its original designer does not survive, it was constructed in conjunction with the Arkansas State Highway Commission and thus may well have been designed by one of that state agency's engineers. Given its relatively intact condition it retains sufficient integrity to remain associated with its historic period and is thus locally eligible under Criterion C.
