U S LIME COMPANY - ST. CLAIR  
P.O. BOX 160  
MARBLE CITY, OKLAHOMA 74945

**METHOD OF DOCUMENTATION OF ACCEPTANCE:** By type and manufacturer.  
Manufacturer shall supply a material certification to the Resident Engineer with each shipment.

**AGREEMENT FOR THE ACCEPTANCE  
OF LIME BASED ON PRODUCER/SUPPLIER CERTIFICATION**

Lime will be accepted by the Arkansas State Highway and Transportation Department based on the producer's/ supplier's certification that the material meets all requirements of applicable Department specifications (AASHTO M 216) under the following conditions:

1. The producers/suppliers shall maintain a file of their test results and methods of testing.

2. Lime shall be sampled and tested by the producer as needed to maintain specification compliance (monthly composite samples will be tested as a minimum). Results of these tests covering the lime certified and shipped to Department projects shall be furnished to the Department's Materials Division upon request.

3. Shipments to Department projects shall be made only from bins/silos that are certified to meet Department specifications.

4. The producer/supplier shall furnish with each shipment a certification containing the following:

- a. consignee
- b. date and place of production
- c. date and time of shipment
- d. truck or railroad car number
- e. quantity of lime shipped
- f. type of lime(hydrated/quicklime)
- g. bin/silo number from which shipped
- h. a statement that "This is to certify that the lime in this shipment is from bin/silo number\_\_\_\_\_and complies to AASHTO M 216."
- i. the signature of a responsible company official

One copy of the shipment certification form for the Resident Engineer shall accompany the shipment.

5. The Department will make periodic inspections of the producer's product by source sampling and by checking test results and methods of testing used by the producer.

6. Destination samples will also be taken as deemed necessary to assure compliance with specifications. Failure of these samples may be considered sufficient cause to reject the lime and suspend further shipments until tests by the Department determine that the producer's product is in compliance with applicable specifications and requirements.

Acceptance of lime by this method is subject to withdrawal for failure to comply with the above requirements.

Please acknowledge agreement to the above requirements by signing and returning a copy of this letter for our producer files.
