Method of Documentation of Acceptance: By Brand and manufacturer.

Procedure for Approval: Plastic guardrail blockouts shall meet the dimensional requirements of Arkansas State Highway and Transportation Department Standard Drawing GR-8 and meet the criteria of NCHRP Report 350, Level 3 or the Manual of Assessing Safety Hardware (MASH), Level 3.

Samples of plastic guardrail blockouts submitted for approval shall be accompanied by a detailed drawing of the blockout and product literature to include confirmation that the criteria of NCHRP Report 350, Level 3, or MASH, Level 3, are met.

After approval for inclusion in the Qualified Products List, samples may be taken at random from shipments for testing. Non-conformance of any material will cause the product to be removed from the Qualified Products List.
