Method of Documentation of Acceptance: By brand and manufacturer.

Method of Approval for Materials to be added to this Qualified Products List:

1. The manufacturer will provide Materials Division with a manufacturer's certification stating compliance with the specification.
2. The manufacturer shall provide a sample, product information, and Material Safety Data Sheets.
3. When deemed necessary by the Materials Engineer and at a frequency determined by same, samples shall be taken and tested on a random basis.

4. Multiple material failures will be considered sufficient reason to reconsider acceptance of material from a manufacturer. The Materials Engineer will determine if the failures warrant discontinuing acceptance.
