(For applications at air
temperatures of 60°F - 90°F)

The Euclid Chemical Company
3835 State Route 72
Kirkland, Illinois 60146
(815) 522-3394

Method of Documentation of Acceptance: By brand and manufacturer.

Method of Approval for Materials to be added to this Qualified Products List:

1. The nonshrink grout will consist of prepackaged, premeasured materials supplied by the manufacturer and be one of the following types:

(a) Cement-based grout. The packaged materials will require only the addition of water.

(b) Epoxy grout. The material will consist of a total system. Any resin hardener or additive to the grout will be supplied by the manufacturer.

The manufacturer's mix instructions and usage information must be included with the package.

2. The manufacturer/supplier will provide the Materials Division with a test report from a recognized laboratory showing testing in accordance with ASTM C 1107, Standard Specification for Packaged Dry, Hydraulic-Cement Grout (Nonshrink). The test report will verify that the grout meets the performance requirements of ASTM C 1107. A recognized laboratory is any State Highway Agency, Federal Highway Administration, or independent laboratory regularly inspected by the National Institute of Standards and Technology. All test reports will include the manufacturer's name, brand name of the material, and date of testing.
