• Task force formed in 2003 to seek new strategies to combat roadside litter.

• 13 Counties agreed to participate in pilot program with pay of $2.00/hour.

• That pay is a means to reimburse a county for providing security and transportation to the inmates.
Our Responsibilities

- Provide signs and supports for placement in the vicinity of roadside litter pick-up activities, safety vests, trash bags and collection & disposal.

- ARDOT retains the right to perform reasonable audits of the activities and reimbursements of the Jail-Inmate Litter Pick-up Program and to examine all records of the county relating to the program.
County Responsibilities

- On-Site oversight & supervision of jail inmate crew (unless work-release or community service inmates).
- Coordinate daily litter pick-up activities with ARDOT
- Maintain and submit documentation relative to reimbursement requests.
- The needs of the inmates and the security & protection of the public.
How to Participate

1. County Sheriff or Judge contacts ARDOT
2. County Official meets with District Engineer
3. District Engineer provides paperwork
   a) Agreement
   b) Sample Resolution
   c) Labor Time Record Form
   d) Reimbursement Request Form
4. After Resolution & Agreement signed by County Official, sent to ARDOT Director for signature.
5. After Director signature, Agreement distributed to County Officials, the District Engineer and the ARDOT Assistant Chief Engineer – Operations.
6. To request reimbursement, the County submits the Reimbursement Request Form to the ARDOT Area Maintenance Supervisor.
