Construction on Interstate 30 in Saline County
Requires Overnight Lane Closures

SALINE COUNTY (10-04) – Construction to widen Interstate 30 to six lanes in Saline County
requires continued overnight lane closures on the Interstate, according to Arkansas Department
of Transportation (ArDOT) officials.

Weather permitting, eastbound and westbound lanes on I-30 will alternately be closed in various
locations within the project’s work zone, west of the interchange with U.S. Highway 70 (Exit 111)
to east of Sevier Street in Benton (Exit 116). Depending on location, an inside or outside lane will
be closed to allow crews to place asphalt, temporary striping and barrier wall, followed by lane
shifts. This work will take place during overnight hours from Sunday night, October 6 through
Saturday morning, November 2.

➢ Eastbound lanes will be reduced to one open lane between 9:00 p.m. and 5:00 a.m.
➢ Westbound lanes will be reduced to one open lane between 10:00 p.m. and 6:00 a.m.

Traffic will be controlled with construction barrels and signage. The public is advised to be
cautious when traveling in the work zone. Areas adjacent to the interstate may experience noise
impacts during nighttime hours.

This project (Job CA0601) is part of ArDOT’s Connecting Arkansas Program and includes
widening 5.5 miles of Interstate 30 to three lanes in each direction, from the interchange with
U.S. Highway 70 (Exit 111) to Sevier Street in Benton (Exit 116). The project also includes
improvements at the Highway 67 interchange (Exit 114). More information on this $187.3
million project is available at ConnectingArkansasProgram.com.

Drivers should exercise caution when approaching and traveling through all highway work
zones. Additional travel information can be found at IDriveArkansas.com or ARDOT.gov. You can
